Horumon Orchard
"Horumon" is what you call meat from gross bits of the animal, like intestines or whatever
I bet that means there's a good orchard for it around here!
Hmm-
And this area has a bunch of good horumon places, seems.
But yeah, I was looking on the way here,
You wanna just go to that place over there instead? No line.
Come on, we could go to a chain like BEEF-Kaku anywhere!
That'd make this whole trip out here meaning-less!
Note: It's Gyu Kaku
You sure do like your chain restaurants.
You and your plebian tongue.
-Kaku is pretty good though, I think.
Note: Still Gyu Kaku
...You say that, but that place is actually kinda pricey.
Fine, you and your chain tongue.
